Event Details: Wednesday-Saturday 8:30am-5:00pm, Friday evening 6:30-8:00pm

This session, the second of two seminars, continues the equipping process for facilitators in Bible-based Trauma Healing using the book 'Healing the Wounds of Trauma: How the Church Can Help' and its associated program model. This proven approach uses applied Scripture and best mental health principles to address spiritual and emotional wounds caused by trauma of war, ethnic conflicts, natural disasters, car accidents, abuse, and similar events. The book has been translated and taught in over 50 countries with more than 150 language groups in Africa, Asia, the Pacific, and the Americas.

The advanced session hones the skills acquired at the initial session and during the practicum. By the end of this session, trainees should be better able to solve program issues arising in trauma healing as they carry out their ministries. They should understand that materials completely and clearly and be able to teach in a participatory way. Participants who have the necessary competencies are certified as training facilitators or caregiver facilitators at the end of the advanced session.

REQUIREMENTS for attending the Advanced Equipping Session:

1. Successfully complete the Initial Equipping Session, *and*
2. Teach the five core lessons *at least twice* to groups of at least three people (plus as many of the optional lessons as possible), and send in reports on the activities.

Registration Deadline is at NOON 16 October 2017

Fee includes all training materials and snacks but not meals, housing or travel.
