

# TRAUMA HEALING ADVANCED EQUIPPING COURSE

## Bible-based Trauma Healing

### About the Course

This Course continues the equipping process for facilitators in Bible-based Trauma Healing using the book *Healing the Wounds of Trauma: How the Church Can Help* and its associated programme model. This proven approach of the Trauma Healing Institute uses applied Scripture and well-attested mental health principles to address spiritual and emotional wounds caused by the trauma of war, ethnic conflicts, violence, natural disasters, abuse and similar events. The book, has been translated and taught in over 100 countries with more than 194 language groups in Africa, Asia, the Pacific and the Americas.

The Advanced Course hones the skills acquired at the Initial Course and while leading Healing Groups. By the end of this course, participants should be better able to solve programme issues arising in trauma healing as they carry out their ministries.

They should understand the materials completely and clearly and be able to teach in a participatory way. Participants who have the necessary competencies are certified as Training Facilitators or Healing Group Facilitators at the end of the Advanced Course.

### Who should Attend?

Participants must have attended an Initial Equipping Course and also led or co-led at least two healing groups, or some equivalent activity, and submitted their reports.
